SUMMARY

QA Engineer with 6 years of experience in software testing, quality assurance, and code analysis across web and mobile applications. Experienced in both manual and automated testing, with hands-on expertise in Playwright, Cypress, Selenium, and modern QA practices to ensure reliable, high-quality software delivery. Passionate about continuous improvement and test automation, I leverage AI-powered tools such as ChatGPT and GitHub Copilot to accelerate test design, optimize automation frameworks, and enhance QA productivity. I thrive in Agile environments and strongly believe that collaboration, communication, and a quality-first mindset are key to project success.

EXPERIENCE

Software Quality Assurance Tester

Sales Pipe Pro

March 2025 - Present | United States

- Developed and maintained automated tests in Python for Odoo CRM and business workflows.
- Automated UI and backend validation using Pytest and Playwright.
- Designed and executed end-to-end and regression test suites to ensure application quality and stability.
- Integrated automated testing into CI/CD pipelines to support continuous delivery.
